Audit Findings

Audit Narrative

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor’s process for the site review.

The Prison Rape Elimination Act (PREA) on-site audit of the Genesis Recovery Kentucky Center (GRKC) was conducted on July 30-31, 2018, by Bryan K. Henson, a DOJ Certified PREA Auditor with one support staff, Joseph Z. Martin, also a DOJ Certified PREA Auditor. This will be the first PREA audit for GRKC as the facility was opened in 2016. The purpose of the audit was to determine compliance with The Department of Justice (DOJ) PREA standards. During the Pre-audit phase, much of the file review was conducted prior to the on-site visit with some follow-up questions provided to the PREA Coordinator. During the on-site portion of the audit, any necessary file review follow-up was completed, we toured all areas of the facility and conducted formal staff and resident interviews. The auditors interviewed a total of 30 residents, 25 were random resident interviews, along with 4 residents that had identified as gay or bisexual residents, and 1 resident the facility had identified as disabled. The facility indicated there were no limited English proficient, or residents that had reported sexual abuse at the facility. In addition, the auditors interviewed a total of 26 staff, including 12 random staff, (representing all shifts and various posts), and 14 specialized staff to include the Designee for the Chief Executive Officer, the Facility Program Director, and the PREA Coordinator. The interviews covered PREA training, how to report, to whom to report, filing reports, available interventions, conducting interviews, evidence preservation protocol, follow up, and monitoring for retaliation.

An entrance meeting was held at the beginning of our visit with the Facility Director Tony White, and Designee for the CEO Todd Trumbore. The auditors provided an overview of the audit process. There were 98 residents assigned to the facility on the first day of the on-site review, and the facility had a designed capacity of 105. Following the entrance meeting, we toured all areas of the facility. Throughout the tour, the auditors spoke informally with both staff and residents. The auditors also observed PREA signage that contained zero tolerance language as well as information on reporting methods and access to an outside victim advocate. During the tour, it was found that audit notices were posted throughout the facility. A timestamp photo had also been provided during the Pre-audit phase to confirm that the notices had been posted at least six weeks prior to the on-site review. Placement of all cameras and any potential blind areas were also noted throughout the tour. The auditors received no letters of correspondence from either residents or staff prior to or during the on-site review of the audit. In the past 12 months from June 2017 through May 2018, GRKC reported there were no allegations reported of sexual abuse, and 1 allegation of sexual harassment at the facility. The 1 allegation of sexual harassment was investigated and found to be substantiated.
Although the facility PREA policy covers language for all standards that have a policy mandate, it is strongly recommended that the PREA Coordinator conduct a review of the PREA policy and consider adding additional detail to better support many of the other PREA standards to assist and better guide staff in their continuous readiness and response to allegations of sexual abuse and sexual harassment.

An exit meeting was held at the end of day two to brief the Executive Staff of the general findings of the audit to date. The site visit found the staff and residents to have a good general awareness of what PREA was about. They were very aware of reporting methods and responsibilities, as well as the means to safeguard victims of sexual abuse and/or sexual harassment. The rapport between staff and residents was excellent and it was evident the facility had a very conducive reporting environment.

Facility Characteristics

The auditor’s description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Genesis Recovery Kentucky Center is a long-term residential recovery program for adult men seeking recovery from substance abuse. The program is six to nine months. This is a nonprofit organization and an affiliate of the Recovery Kentucky initiative. GRKC currently has 16 staff and serves a population of 105 adult men and offers four levels of recovery which incorporate a social model of recovery, peer support, accountability, daily living skills, job responsibilities, and practical living experiences. These are all components that support the safety of their residents from incidents of sexual abuse and sexual harassment. GRKC also incorporates the 12 steps with Recovery Dynamics classes, and life skills classes to educate the addict/alcoholic about their disease. The facility is made up of 1 building and the housing units have 37 single rooms, 10 multiple occupancy rooms, and 2 open bay dormitories. The GRKC mission is to deliver exceptional services in a caring, professional manner.

Summary of Audit Findings

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

(a) The Pathways agency PREA policy prohibits hiring or promoting anyone that has committed any of the 3 provisions in section (a).
(b) The interview responses of the Human Resource (HR) staff support that incidents of sexual harassment are considered in determining whether to hire or promote anyone, or enlist the services of any contractor.
(c) The Pathways agency PREA policy requires criminal background checks on all potential employees or promotional candidates, as well as contacting previous employers for applicable information. Random review of employee files found that background checks are performed on staff and those who are promoted.
(d) Staff interview responses indicate that background checks are not conducted for any contractor to be enlisted; however, the facility reports no contractors have been enlisted at GRKC. While on-site, the Pathways agency PREA policy was revised to require such background checks and interviews with the HR staff support that any future contractors would have a background check conducted. Based upon these actions, this section was found compliant and no corrective action would be required.
(e) A random review of employee files found that background checks are conducted on current employees at least every five years. Since no contractors have been enlisted at GRKC, this area could not be checked.

It is recommended that language from this section of the standard be added to the agency PREA policy.

(f) Questions regarding previous misconduct are asked of each applicant and employee considered for promotion, as well as each employee during their annual self-evaluation. The auditors reviewed forms that are utilized for this purpose.
(g) The application for employment has language that supports section (g).
(h) The HR interview supported that the agency would provide information as required in section (h).

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. The Pathways agency PREA policy has language that supports the standard. Interview responses from the Facility Program Director as well as the auditor observations support that the facility did consider the effect of the design of the facility and how the technology of the cameras would enhance the agency’s ability to protect residents from incidents of sexual abuse. The facility opened during this audit period and have made no modifications of facility or upgrades of cameras since the initial opening.

 ☐ Does Not Meet Standard *(Requires Corrective Action)*

Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's*
conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

(a) GRKC does conduct administrative investigations and the auditors reviewed a written evidence protocol provided by the facility that allows responders to maximize the potential for obtaining usual physical evidence for administrative proceedings and criminal prosecutions. This evidence protocol is also followed by the Ky State Police who conducts the facility criminal investigations.

(b) The protocol has technical detail to guide responders in obtaining or protecting/securing physical evidence. The facility does not house youth (juveniles).

(c) The Pathways agency PREA policy supports that GRKC provides residents access to forensic exams through an outside hospital. This service is provided at Kings Daughters Medical Center in Ashland Kentucky. The auditors contacted the outside hospital and confirmed the available services and it was also confirmed the services can be performed by a SANE. The staff interview responses and policy support the services are offered at no cost to the residents. No incidents have occurred that required sending a resident out for a forensic exam.

(d) Victim Advocate Services are provided at GRKC by the Pathways Rape Victim Services Program. This was verified by contacting the Outside Rape Crisis Center. The facility is included in an MOU between KDOC and KASAP (Pathways Rape Victims Services Program) that provide victim advocates services to GRKC. Documentation was also provided verifying that 2 staff members have been trained to act as Victim Advocates if needed. Staff interviews support this standard as well.

(e) Staff interviews as well as the Rape Crisis Center support that if requested by the victim, the victim advocate will accompany and support the victim through the forensic examination process and investigative interviews.

(f) Documentation was reviewed to confirm that Kentucky State Police had been requested and responded to confirm they will follow the requirements as requested in this standard.

Reviewed training curriculum and it meets each component of standard. Both Pathway facilities house male only; therefore, any staff coming from another facility that houses females is a new employee and would receive the initial PREA training. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The Pathways agency PREA policy supports the standard in that all volunteers and contractors are trained in the appropriate PREA topics. A review of the training handout and the completion/acknowledgements forms signed by each of the volunteers demonstrates compliance. Interviews of volunteers support that training has been conducted. They report there are no contractors currently working at GRKC. During the on-site review, there was discussion about the A.A./N.A. meeting led by residents but open to anyone coming from the streets. The question was should these individuals coming in from the streets have some level of PREA training. Due to the anonymous nature of this type meeting, these visitors enter from an outside entrance to the facility and exit from the same doorway and do not sign-in or provide any personal information to the residents or facility. Residents leading these meetings are part of the accomplishments of this program. The facility staff have signage in these areas and supervise the area with intermittent rounds during the meetings. After requesting guidance from the PRC auditor helpline, it was determined these individuals would be treated as visitors and not be required to have any PREA training.

A check of sample screenings conducted in the past 12 months, as well as resident interviews indicate that all residents at intake are being screened for risk of being sexually abused or risk of sexually abusive toward other residents. The random sampling of screenings indicated screenings are completed within the 72 hours and most within 24 hours. Documentation reviewed by the auditors indicates that the facility is reassessing the residents risk levels based upon any additional, relevant information within 30 days of arrival. If there is no information to indicate a change from the initial assessment, then such is documented to demonstrate the appropriate areas have been reassessed. Staff interviews support additional reassessments would be conducted as required in section (g). There is no evidence of inappropriate discipline toward residents, and there are appropriate controls of the responses to the screening tool as they are securely maintained in the office of the SOS Coordinator.

In reference to the requirement to reassess within 30 days or arrival, the agency PREA policy states it "may" reassess within 30 days. It is recommended that the language "may" be revised to "shall" to ensure staff understand this is a mandate. Also, recommend adding language from section (g) to the agency PREA policy to ensure staff have knowledge of other reasons to conduct a reassessment.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

(a-f) The Pathways agency PREA policy states that information obtained from the risk assessments shall be used to determine appropriate housing and/or bed placement or the appropriateness for facility programming placements. The Program Director makes all housing decisions, and approves all program decisions that include chore assignments within the Recovery KY Programming. He maintains a spreadsheet that is set up with color coding to enable him to use the screening information to inform any housing decisions. A daily log that tracks program and work assignments requires the Director to sign each day approving such assignments after giving consideration to Risk Screening Information. The spreadsheet and logs were reviewed by the auditors. All rooms and dorms are equipped with individual showers to allow for all to shower separately. Staff interviews support that transgender/intersex residents, if present, would have input to their own safety and no designated facilities are set up for LBGTI residents.

(a-d) The facility provides multiple internal ways for residents to report incidents, i.e. any staff member, complaint form to be mailed anonymously, given to a staff member, or slipped under a staff member’s door, etc. Residents may also report outside of the agency to the PREA Hotline that goes to the KY DOJ Investigative Branch. For those residents that first arrive at the facility, they are restricted from using the phones for the first 30 days, but an address is provided for them to write to include the Victim Advocate Services, and they have multiple other internal methods that can be used during this time period. A test call was conducted on the PREA Hotline and was connected and received properly. Staff are required to accept reports in any form and document such reports. Staff have methods in place to privately report incidents to include the hotline. The facility program is based upon a peer support and accountability system that creates a very conducive reporting environment. This was very evident from observing the rapport between staff and residents (to include peer mentors) throughout the on-site review.

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The facility does have a grievance/complaint system that allows residents to file related to sexual abuse. The Pathways agency PREA policy indicates there are no timelines for any grievances/complaints related to sexual abuse. The complaint system does not require the resident to submit it or be responded to by the alleged involved staff member. When asked, the Director responded that 3rd parties may assist in these type complaints. The policy supports an established procedure for responding to emergency grievances alleging sexual abuse. No residents were disciplined as a result of filing a complaint for sexual abuse. There were no grievances/complaints filed regarding sexual abuse within the past 12 months.

Recommend that the agency PREA policy provide more of the standard language to better support the standard.

Recommend they schedule PREA audits within the first year of the next audit period for at least one of the facilities. Auditor had access to all areas of the facility and allowed any documentation requested, and was able to conduct appropriate interviews as well as receive confidential correspondence.
